**THE LION OF THE DAY.**  
THE OLD VEGETABLE OR GERMAN PILLS.  
POSITIVE, OR NO PAY.

HEY are highly recommended by Dr. Valentine Mott, of the city of New York. A medicine to prevent the attacks of disease, to keep the system in healthy action, and to eradicate as soon as possible every disease as soon as it appears, has been the great study of medical men for many years without success. The subscriber, however, not expecting his Pills to cure all the ills which flesh is heir to, confidently recommends them as certain and efficacious in the following: Headache, Jaundice, Dyspepsia, Cholera, bilious, remittent, and intermittent fevers, diseases of the Liver, and Spleen, Female Obstructions, Rheumatism, Foul Stomach, Dizziness of the Head, Loss of Appetite, Weakness, trembling of the Limbs, Nausea, or sickness at the Stomach, Fishings of the Face, Summer Complaints, Measles, Scarlet Rash, and will be found valuable in complaints of the Digestive Organs, and particularly those arising from impurity of the blood, as a preventive against Fevers, no persons should go to a warm climate without a box of these Pills; they are entirely of vegetable ingredients, and can be taken safely without fear. Price, 37 1/2 cents a box.

For sale at A. GUYER'S Drug Store, 101 Hanover street, corner of Salem street, Boston. General Agent for the N. E. States, and may be had at most of the Drug Stores in the U. S. and in the Canadas.

The genuine Pills have the written signature of **HERRITT GRIFFIN** on each box.

**HUMAN HAIR.**  
**Cleanliness of the Head & Hair.**  
STRANGE it is that persons who attend strictly to personal cleanliness, bath, &c. should neglect the Head & Hair, the most essential the most exposed and the most beautiful, when properly cared for, of all the gifts of the Creator. Perfectly free may it be kept of dandruff or scurf, with a certainty that the hair cannot fall out, by the use of the Balm of Columbia. Ladies, will you make your toilet without this article? I answer fearlessly. No. If you have once tried and experienced its purifying effects its sweet perfume.

A hundred articles have been put forth on the credit of this the only first the only really valuable article. A mass of testimony from all classes on these facts.

LOOK OUT. Counterfeiters are abroad; look always for the name of COMSTOCK & Co., on the splendid wrappers, and never buy it without that name.

[From the Boston Chronicle, Jan. 10.]  
We see by an advertisement in another column, that Messrs. Comstock & Co., the Agents for Oldridge's Balm of Columbia, have deputies to sell that article in Boston and elsewhere. We know a lady of this city, whose hair was so nearly gone, as to expose entirely her phenomenal developments, which, considering that they betokened a most amiable disposition, was not, in reality, very unfortunate. Nevertheless she mourned the loss of locks that she had worn, and, after a year's fruitless resort to misadvised restoratives, purchased, some months ago, a bottle or two of Oldridge's Balm, and she has now locks in rich profusion, glossy and of raven blackness. We are not puffing: none of the commodity has been sent to us, and, indeed, we do not want any, for, though we were obliged to wear a wig a year ago, we have now, through its virtues, had enough, and of a passable quality of our own.

The Balm of Columbia has been imitated by a notorious counterfeiter. Let it never be purchased or used, unless it have the signature of COMSTOCK & Co. on a splendid wrapper. This is the only external test that will secure the public from deception.

Address COMSTOCK & Co., Wholesale Drug Store, New York, 71 Maiden Lane.

**LIVER COMPLAINTS, AND ALL SICKNESS & DISEASES. DR. LINS.**

**Temperance Life-Bitters, AND CHINESE BLOOD-PILLS.**

**The Greatest Secret Discovered!**  
PURGE purge, purge has been the cry for the last few years. This has been effectually tried, and yet sufferers have multiplied, and died; and why? Not because purging was not necessary, but too much has been done without the tonic to follow, and sustain the system. Purge, you must! The sickly humors of the blood must be carried off, or the accumulation of them prevented. Prevent, then, the growth of such humors.

Why do the Chinese live to such immense ages, and still retain the powers of youth or middle age? Because they purify the blood. The Chinese Blood Pills, so called because they work upon and cleanse the blood—are the standard remedy. These Pills will do it; and the Temperance Bitters, taken as directed, will strengthen the system and prevent the accumulation of the base humors which infest the blood, and which only increase by purges, unless the Bitters are taken after. Buy, then, these Pills and Bitters. Take weekly the Pills and daily the Bitters; and if you are or have been invalid for days, weeks, months, or years, you will find the sickly humors drawn off, and prevented from a return, and the salutary glow of health and youthful buoyancy.

There are cases so numerous of these brilliant effects, that time and space forbid an attempt to put them down. Buy and use these medicines, and use no other, and health and strength shall be yours. See wrapper and directions that come with them.

**FRAUDULENT COUNTERFEITS**  
will be attempted. Buy to remedy of the kind unless it have my name, O. C. LINS, M. D. on the wrapper, and also the notice as follows:

Entered according to Act of Congress, A. D. 1841, by TITUS CONNELL, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

Warranted the only genuine.

Messrs. Comstock & Co., New York, are the sole wholesale Agents for the United States and all neighboring countries.

**Ho! Ye Red Heads & Grey!**  
**PHENOMENON IN CHEMISTRY.**

**East India Hair Dye.**  
Colors the Hair and will not hurt the Skin!!

THIS Dye is in form of a Powder which in plain matter of fact may be applied to the Hair every night; the first night turning the lightest red or very light to a dark brown, and by repeating a second or third night, to a bright jet black. Any person may, therefore, with the least possible trouble, keep his hair as dark as a raven's, or perfect black; with a positive assurance that the powder, if applied to the skin, will not color it. There is no trouble in removing it from the hair, as in all powders before made. By an occasional application, a person turning grey will never be known to have a grey hair! Directions complete with the article. There is no coloring in this statement, as one can easily test.

These facts are warranted by the gentleman who manufactures it, who is the celebrated chemist, Dr. Comstock, author of Comstock's Chemistry, Philosophy, and many other works well known and widely celebrated by the public.

This Dye is sold by COMSTOCK & Co., 71 Maiden Lane, New York.

## Later from Texas.

An extra New York Herald gives later intelligence but nothing of importance.

The general enthusiasm of the community was great that it extended to the fair sex, and several of the ladies of Galveston were industriously engaged in moulding bullets, and making cartridges for the use of the army.

The Galveston Gazette states that the Mexican forces had received no occasion and also that it was reported at Vera Cruz that some fifteen or twenty thousand soldiers were assembling at the City, for the avowed purpose of putting down Yucatan and Texas.

Galveston contributes well in men and money, two companies, well drilled by C. G. Bryant of the city, have sailed for the west, a body of five fellows and destined to endure hard service.

The Mexicans have plundered and evacuated San Antonio, and San Houston says the war shall be waged against Mexico.

The number of Mexican troops has been over stated. All the families have removed from Austin business has been suspended, and the public records have been packed up, ready for removal, the people of the place concurring in the policy of placing the seat of Government in a more central position until the restoration of peace.

The Texas troops were in pursuit of the Mexicans and it was confidently expected that the latter would be completely routed, they having retreated from San Antonio.

It is distinctly stated by correspondents at Washington, some of whom have good opportunity for obtaining information that Cabinet meetings are frequent and that President Tyler will very soon send a message to Congress recommending hostile demonstrations towards Mexico in consequence of her detention of American citizens captured with the Santa Fe Expedition. It is stated, however, that Mr. Kendall is the only citizen of the United States taken. The probability is, rather, that instructions will be given to our Minister to make a formal demand for the liberation of Mr. Kendall and others, if any there be, and on refusal for him to ask his passports and return. In order to keep our country in the right it is best to understand clearly the character and circumstances of Mr. Kendall's mission.

Materials are not wanting to fan up a war spirit. A letter from one professing to know and to disclose some of the business of the President and his cabinet states, that dispatches had been received from Mexico, that Santa Anna had refused to deliver up the American prisoners on the demand of our minister, and treated the minister, and the American people with great disdain, that the present expedition into Texas has been undertaken by advice of an English Gentleman, that money had been furnished by a London interest on the guaranty of churches and missions in Mexico, that the British ministry encourage this matter to produce confusion, to annihilate Texas on account of Slavery, and in the squabble to get possession of Cuba, and abolish Slavery in the Spanish West India Islands, for the purpose of checking the growing power of the United States towards the South.

For our part we can see no just cause of war, a tangle in our foreign relations but what may be amicably and fairly settled, and nothing but what would be so settled if the best interests of our whole country, and people were justly consulted. But the condition of affairs at home the public sacrifices men are willing to hazard for personal advantage are sufficient to cloud up the future with important events.

## The Northern Light.

By the title to a monthly publication devoted to Free Discussion and to the Diffusion of Useful Knowledge, Miscellaneous Literature and General Intelligence. This periodical is published at Albany, New York in monthly numbers under the supervision of John A. Dix, T. Romeyn Beck, Amos Dean, Gideon Hawley, Thomas W. Olcott and Edward C. Delavan.

The publication embraces four distinct branches of inquiry and intelligence. POLITICAL ECONOMY, AGRICULTURE, LITERARY AND SCIENTIFIC MISCELLANY and GENERAL INTELLIGENCE. It has been published one year and has well sustained the high expectation of the reading public in regard to it. While articles taking opposite sides upon questions in political economy appear in this work it has been kept free from partisan discussions, and been a worthy and welcome light in the families and workshops, the counting rooms, and offices of those of every variety and shade of politics.

The second volume will commence on the tenth day of April inst, and Mr. Joshua C. Plummer is the Agent for this city, to whom application can be made. The subscription is only one dollar a year.

From present appearances the prospect of any satisfactory arrangement of the Tariff is exceedingly small. The Locos make use of it as a party matter and insist, as a preliminary measure, that the Distributor Bill shall first be repealed, and this being done there is no certainty that they would favor a Tariff such as the country needs. The people however are rapidly coming to the conclusion that a Tariff for protection of our must have and they must work and move until their representatives shall be made to feel the necessity of acting upon this matter in accordance with their wishes.

We received a capital lot of papers by Winslow's Express by the Boat, in advance of the mail.

## Great Fire in New York.

On Thursday last a fire broke out in Delancy Street and consumed about fifty principal houses and a large number of humble dwellings in their rear. The number of houses destroyed was not less than one hundred, and about two thousand persons were deprived of shelter. Several lives were lost and among them three small children. The loss of property on the buildings is stated at \$119,000 but perhaps at no fire in that city was there ever half as much suffering caused to the poor and needy as in this.

The following sensible article has been handed us for publication. It has been stated to us that it was offered for publication in the Democrat, and assurances given that it should appear, but subsequently it was returned to the author, and its publication declined. The editor of that concern had probably overruled the decision of the editor as interfering with their plans of distributing offices. That the article may not be lost to the public we give it an insertion.

For the Democrat.

To the Hon. the County Commissioners for the County of Penobscot Gentlemen.

As it is generally expected that you will before long make a new appointment in the office of Surveyor General, and as I am, in common with my fellow townsmen, very desirous that a suitable man should receive the appointment, as it is a matter that very materially affects our pecuniary interests, and as it may and really to a certain extent affects the interests of the party to which we belong, and in the success of which the best hopes and wishes of our hearts are bound up, I take the liberty of addressing you, and I feel a greater freedom in so doing as a late law of the State has brought about, that near relation which exists between the citizens of the county, and its public officers.

It would be needless for me to allude to the immense amount of that kind of property, the value of which to the operator will, in some degree, depend upon the action of the individual, who is to fill the office just alluded to. We all know that our number has been, and will be for years, our paramount interest. It becomes you, therefore, to take the greatest care to select the proper man for so important an office. The claims of each candidate should be strictly scrutinized as to competency, acceptability and honesty, and no one should receive the appointment who is suspected or capable of the least partiality, subserviency or corruption. Our operators do not just wish for favors, all they want is their just rights, and that the survey of their lumber, the fruit of their toil, should be impartial and equal, with no distinctions in favor of any man or class of men.

But there are some other considerations which may properly be taken into view. It is useless to deny the fact, that there has been great inequality in the distribution of office between the different sections of the county, and, worse than all, that by arrangement and big rolling, it is frequently happened that one applicant, under a very and unpopular name have succeeded in obtaining themselves upon the public and there is at this time a good deal of feeling throughout the county upon these subjects. For one, I deplore these feelings, and am the last man who could be induced on such grounds to give up principle, and desert to the enemy and I cannot respect the man who will, but history and reflection teach us that no party can sustain itself, unless mankind become very much changed, if the feelings which do and will exist upon these matters, are not respected and rigid.

Now, if these things are so, and you certainly have means of ascertaining whether they are so or not, permit me to hope, if one section of the county has had more than its due share of the emoluments of office, that you will not by your action contribute to render inequality more unequal, or suffer yourselves to be maneuvered into the appointment of any one who is undeserving, incompetent, or who will not meet the views of the county generally, and of that class who are more particularly interested and have a right to be heard in this matter.

I trust that in what I have written, I have been actuated by no unworthy motive or spirit of defamation or by any doubts of your integrity or ability to take into view all that should have weight in your minds to enable you to come to a right decision. But if you should discover or think you discover any thing improper either in manner or matter, I trust you will be ready to pardon something to the spirit of liberty.

## Senatorial Apportionment.

We publish to day, the Protest adopted by the Whig members of the House, against the late arrangement of the Senate districts. This Protest, it will be remembered, was refused a place in the Journal of the House by a part of the majority, although, so high handed was that exercise of major force, that the Locofocos did not carry it by their full strength. Some of their men voted in favor of this evident justice to the Whigs.

A very strong case needs to be made out to refuse a Protest. It is the last resort of a minority, and unless very positive reasons exist to the contrary, they should be allowed, especially on constitutional questions, this mode of settling themselves right before the country and the world.

The point is well put in this Protest that nothing is now in the way, if sufficiently unscrupulous agents can be elected, to prevent an annual apportionment of the Senate, and thus the frauds and perjury so plainly contemplated by the Constitution, is entirely prevented.

## PROTEST.

HOUSE OF REPRESENTATIVES, March 17, 1842.

The undersigned, members of the House of Representatives, Protest against the Resolution passed A. D. 1841, for dividing the State into districts for the choice of Senators, and for apportioning Representatives among the several counties, cities, towns, plantations and classes of the third apportionment, which passed the Legislature on the sixteenth day of March, A. D. 1842 and ask that this their Protest may be entered on the Journal of the House.

The Constitution provides that the Legislature which shall be first convened, shall, on or before the fifteenth day of August, in the year of our Lord one thousand eight hundred and twenty-one, and the Legislature at every subsequent period of ten years, cause the State to be divided into districts for the choice of Senators,

And the districts shall conform as near as may be, to County lines, and be apportioned according to the number of inhabitants.

The Legislature of 1841, in pursuance of the foregoing requirements, did cause the State to be divided into districts for the choice of Senators. We do not perceive the authority of this Legislature, under the Constitution, to amend the resolves whereby the State was divided into such districts. The amendatory resolve, so called, proceeds upon the assumption that the apportionment made by the last Legislature, so far as the fourth and fifth districts are concerned, is unconstitutional and void, that the State is, to that extent, not to be regarded as divided into districts for the choice of Senators, and that this Legislature has the power, which it is bound to exercise, to amend and re-apportionment. It has attempted to do so. In justification of this action, it is insisted that the Legislature, whenever it becomes its duty to divide the State into districts for the choice of Senators, is bound so to form the districts that the smallest possible departure from County lines, consistent with the integrity of towns, shall be always observed, and that no apportionment which does not strictly conform to this rule, is in accordance with the Constitution, or binding on any subsequent Legislature, or the people, although the districts formed by it may be apportioned according to the number of inhabitants more equally than it could be effected by any different apportionment.

To these doctrines we feel bound to express our most emphatic dissent.

We believe that the Legislature of 1841 was the organ designated by the Constitution for apportioning the Senate, that in performing that duty, it acted entirely within its constitutional authority, and that that apportionment is binding on the people of this State for the term of two years, unless they within that period change, as they may, the provisions of the Constitution touching the time or manner of apportioning the Senate.

We believe that the amendatory resolve is liable to the objection that the districts as therein constituted, do not conform as near as may be, to County lines, in the same manner, as the districts established by the resolves of 1841, are exposed to it. In the Waldo district, as proposed by this resolve, there is a surplus of population of 2,3, and in the Kennebec district a deficit of 70. If the town of Vassalboro had been included in the Waldo district, instead of Clinton and the adjacent ones, the surplus would have been reduced to 37, and the deficit in Kennebec to 4. The Waldo district would have been taken from Kennebec a smaller extent of territory, as well as a smaller population than it now has. Neither Clinton nor Vassalboro is believed to be adjacent to the County of Waldo so far as convenience and count of territory are concerned, one town in fact have been taken as properly as the other. The principles laid down by Mr. Justice Shepherd, in his opinion, in answer to certain questions proposed by the Senate, forbid such an apportionment as this Legislature has undertaken to make.

We believe that the great, leading, paramount object in apportioning the Senate, according to the Constitution, is, to have the districts as nearly equal in population as possible. In the House there must necessarily be considerable inequality, owing to large or small sections. One town may have just, or very near, the requisite number and have a Representative, while another may have nearly enough for two, yet be allowed but one. But the Senatorial districts may be made very nearly equal. The old notion of equality of representation by towns or counties, and the idea of property representation, are done away with. The leading idea in the Constitution is equality of population, not territory nor wealth. For convenience sake, county lines were to be regarded, not, however, primarily, and as of most vital importance. This requirement from the very language used, and from that which follows, must, we think, be regarded as a measure directory, and must necessarily yield to the higher object which the framers of the Constitution had in view, and which they chose, for that reason, to express in language the most clear and imperative.

When once it is necessary to break over County lines, in forming any district, the great question is not, how shall the Legislature proceed, as to depart to the least possible extent from County lines, but how shall it make the most just, convenient and symmetrical district, and that which shall above all things most nearly correspond with the population basis throughout the State.

If the principle upon which this Res. has been justified and defended are correct, there is no Senate that can do any act having the force of law. But they are not correct. We regard that resolve as unconstitutional. We totally deny the authority of this Legislature to pass it. The Constitution declares that the State shall be divided into districts for the choice of Senators once in ten years. It is silent as to any other time. Now, whatever authority a Legislature, of which both branches were constitutionally formed, might possess, in virtue of the conservative principle existing in all governments, to pass amendatory resolves in case of neglect or omission, or of an apportionment so palpably unconstitutional as to be clearly void, it is most unusual that this Legislature, with the present Senate, has no such authority. Here there is no such case, but were it otherwise, we are unable to perceive how any conservative principle can come in aid of the resolve which has passed. Whether a Senate formed upon the apportionment of 1841, would be sustained and carried forward by virtue of such a principle, until a new and binding apportionment should be made, it is unnecessary for us to decide.

Up to the state of facts in the present case we do, in our consciences, believe, that the action of the Legislature in re-apportioning part of the State for Senators is a flagrant violation of the Constitution, an outrage upon that instrument which will reflect no common obloquy upon its authors, and cast a deep shade over the fair fame of the State.

When we consider the mischiefs that may, and probably will, result from this measure, if carried into execution, we cannot sufficiently regret that it was found a passage through this Legislature.

Another Legislature, and another, may go over the same ground, and revise our doings as we have attempted to revise those of our predecessors, and it may so happen that our Senate and districts shall be apportioned annually, in direct contravention of the express language of the Constitution. A large number of persons than the Constitution allow us to be Senators may come up here at every session of the Legislature, claiming seats in the Senate under different resolves, and all as the majorities in the districts which they shall claim to represent. And, after scenes of riot and confusion such as once disgraced the legislative halls of a sister State, should those persons be admitted to seats, who shall represent districts not attempted to be formed by a Legislature, who shall say that a Legislature (it may be called so) thus constituted, can pass any act that will be binding on the people, or which will not stand in need of some legal act to give them the force of law? And who shall pass that binding act?

Who shall answer for the pernicious influences upon the morals and fortunes of the country, of

a precedent established here, in New England, among the descendants of the pilgrims, which will authorize any and every infraction of the supreme law of the State, whenever it shall stand in the way of the partisan schemes of unscrupulous politicians?

The first and sixth resolutions declaring it the duty of Government to raise adequate revenue without resort to temporary expedients, and the necessity of abolishing all useless offices, and curtailing all unnecessary expenses, &c. were adopted.

The remainder of the resolutions were disposed of by reference to the appropriate committees.

The Senate then adj. In the House, the Linn Bill was immediately taken up in committee of the Whole, an amendment was made pledging the whole amount to the payment of the Stock, and the vote was taken by general consent, and adjourned by 107 to 77, thus it is certain, the distribution bill cannot be repealed this session.
